The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fail to anticipate or render obvious the following technical features as recited in the highlighted claims:

Re claims 1, 9, 10, and 16 the prior art fails to teach or suggest "...determining a reverse color space vector originating at said color value and extending opposite said white balance color space vector".

Re claim 12, the prior art fails to teach or suggest "...assessing a color value of said ambient light image; and wherein said white balance color space vector defines a white balancing from said color value to a white point for said designated illuminant".
